

Student Empathy Map

Date September 2026
Team ID xxxxxx
Project Name EduMind AI - Smart AI-Powered Learning Assistant
Maximum Marks 3 Marks

Step 1: Target User

Primary user: School, college or beginner-level learner who needs quick, simple and structured support while studying.

Step 2: Empathy Map

SAYS	THINKS
I want quick answers. I need simple explanations. I want help preparing for exams.	Is this topic correct? What should I learn next? How can I revise faster?
DOES	FEELS
Searches for examples. Uses multiple study resources. Practices through questions and notes.	Confused by difficult topics. Wants confidence before exams. Feels time pressure while studying.

Step 3: Key User Needs

S.No	User Need	How EduMind AI Responds
1	Fast access to answers	AI question-answering interface
2	Beginner-friendly explanations	Simple explanations with examples
3	Practice and revision	AI-generated quizzes and study notes
4	Shorter study material	Content summarization
5	Structured learning direction	Topic and level-based learning path
