

Brainstorming & Idea Prioritization

Date September 2026
Team ID xxxxxx
Project Name EduMind AI - Smart AI-Powered Learning Assistant
Maximum Marks 3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	K. ANNAMALAI	AI chatbot that answers questions across programming, mathematics, science, technology and general learning topics.	Core feature	1
2	R. YASWANTH	Simple concept explanations with examples so beginners can understand difficult topics quickly.	Understanding / usability	1
3	A. ELANCHEZHIAN	AI-generated quizzes for topic-based practice, revision and self-assessment.	Practice & assessment	2
4	S. LOKESH	Study notes and summaries that convert learning content into concise revision material.	Study support	2
5	V. SANJAI	Personalized learning path based on topic and learner level such as Beginner.	Personalization	3
6	K. ANNAMALAI	Future enhancements such as multilingual support, voice interaction and learner progress analytics.	Future enhancement	4

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority Selected (Yes/No)
1	AI question-answering chatbot with simple explanations and examples.	High	High	1 (Highest) - Yes
2	AI quizzes, study notes and summaries for practice and revision.	High	High	2 - Yes
3	Personalized learning paths based on topic and learner level.	High	Medium	3 - Yes
4	Multilingual support, voice interaction and progress analytics.	Medium	Medium	4 (Deferred) - No
